

## Village Physiotherapy & Sports Injury Clinic

To our valuable clients,

We would like to assure you that **our clinic is still open** for face to face treatments. We are in constant contact with the Australian Physiotherapy Association who are in turn taking directives from both SA Health and the State and Federal Governments.

We have now closed our group classes including; gym based exercise, hydrotherapy and Physiotherapy led floor and Pilates sessions as per the directive.

To maintain the safety for our clients, our staff and their families we have implemented the following changes.

- **Our door is open to avoid the need to touch the handles**
- **The waiting room has been spaced out to ensure social distancing**
- **The magazines have been removed**
- **Hand sanitiser is accessible at reception**
- **Reception staff is continually disinfecting the waiting room**
- **Disinfecting all treatment areas after each client**

Our treatment rooms are already isolated with full walls and doors. To ensure we best meet the current indoor restrictions we ask where possible for you come to your appointments independently or with a reduced support network, for example only one parent/guardian per child.

**If you have travelled overseas/interstate or been in contact with anyone who has, or have any of the symptoms re; cough, fever, shortness of breath and have an appointment please contact us on 8251 4466 to reschedule your appointment.**

We are very mindful of the physical, mental and psychological impact these current events are having on many people and want to provide the best healing space so we can assist our valuable clients.

Together we will get through this. In the mean time “Move well, stay well” and if you have any concerns please do not hesitate to contact us.

From the Village Physiotherapy Team
